

Consumption – Crisp – Fresh market –Export

Bergerac is a variety with Vitelotte skin and purple flesh. More rustic than Vitelotte (free variety) it allows a better production in quantity and quality. Thanks to its dry matter, it allows the potato crisp production but can also be used for the fresh market (niche market). It is appreciated by great chefs for use in mash, crisp or purple French fries.

General properties

Description and characteristics			
Crossing	Vitelotte Noir x BH 98-180	Tuber size	Average
Breeder	TPC	Calibration	Regular
