

Fresh market – Baby potatoes

Siena is a variety with yellow skin and yellow flesh mainly used in the salad potato market. Siena is very productive and quite resistant to difficult climatic conditions. With its good cooking firmness, the variety is characterized by a good taste. Its beautiful elongated shape and good resistance to common scab make it a very popular variety of packers.

General properties

Description and characteristics			
Crossing	Cecile x Delianne	Tuber size	Average
Breeder	TPC	Calibration	Regular
Registration	European catalog	Dry matter contents	Average
